Saint Vincent de Paul Primary School

Our Proposal

Who are we?

- We are P5 children from Saint Vincent de Paul Primary School.
- Our school is in Ligoniel.

We love our school

- Our school is fantastic!
- We love coming to school to see our friends and learn together.
- We love the way everyone say “hi” to each other.
- We love how friendly people are.
- There is a lot of open space we could use!

Our Area

- Our school is important to us because it is in our local area.

Our Place

- We are a Rights Respecting School and our place matters to us!

- We want our place to be a Rights Respecting School so let's have a look at what we would like to change!

We Want Change!

- We want the best for ourselves and our families! These things in our local area can make us unhealthy.

Litter

Smoke

Fires

Too much T.V

Noise

Too many video games

Dog's dirt

Fast cars

Traffic

Glass

Graffiti

Fast Food

We Want Change!

- We had a look around the school playground.
- This is what we found!

Lots of litter

Our walls are not very clean

It can be untidy...

We have lots of space...

We want to make the most of it!

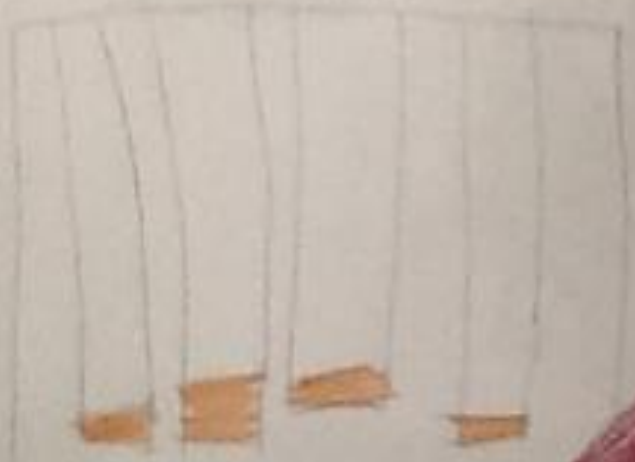

This is Our Proposal

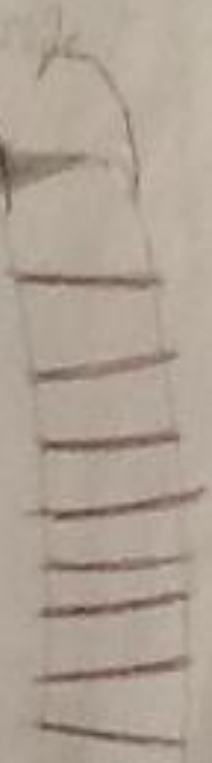

- We all worked hard to find an idea that we liked
- We designed what our play ground should look like in groups and took a vote for the winning design!
- He it is....

Swiss

fourth last

Our Proposal

- We would like more bins at our school so that we don't have as much rubbish.
- We would like the graffiti washed off our school so that it looks pretty.
- We would like some more outdoor play equipment so that we can be more physical and can play with our friends.
- We could even use the school playground after school hours to keep us safe and out of danger!
 - We want to be **HEALTHY!**

Advantages and Disadvantages

Good

- We will be safe
- We will be active
- We will be happy
- Our school will be cleaner

Bad

- It will cost money that we don't have
- It could take a long time
- We would need lots of help to make this happen

Question Time!

Is this something that can happen for our school
and how long would this project take?

Thank you for listening.
